L. Jones Editor

February 2010

Meetings are the 1st, and 3rd Tuesdays of each month September through May at the Marshall Center at 1009 E. McLoughlin Blvd, Vancouver WA at 7:00pm

February Program presented by Chuck Sanders

Chuck is going to go over many of the important criteria for judging images. Topics may include Composition, Technical quality, and Impact. I expect he will also include the scoring system used by 4C's and our local clubs. We will bring a projector so you can bring an image on a SD or Compact Flash card and the club will discuss the images. Bring your question and be prepared to join in the critique of images.

News so far

Next month I will have a presentation on the features of Adobe Lightroom. Bring your questions and we will play with this cool software package. I'll see you on March 16th.

Continuing in February we will have a question and answer session at the end each program night. Bring any images you would like help with. We will answer or at least try to give help with Photoshop including Elements, CS4, and Lightroom. We would like basic question because it gives those of us who will be trying to answer them a better chance to feel good. However we will make a stab at all questions. If it has been bothering you photographically let us have a go at it.
